

Ambulance Technician – Guide to Minimum Entry Qualifications

Qualification Requirements

All applicants for the post of Ambulance Technician must be able to demonstrate learning to a required level in both Maths and English.

The Ambulance Technician course is an academic course which leads to a SCQF level 7 qualification. Therefore, it is important that successful candidates can demonstrate that they have successfully studied to SCQF Level 4 in English and Maths.

We try to accept equivalent qualifications where possible, however if it is not clear that you have studied to the required level, we reserve the right to request further evidence and certification or to reject your application.

- **Mathematic Requirement**

The role of a technician involves a significant numeracy element and therefore it is essential to be successful in the role, candidates can demonstrate competency in basic numeracy skills. We can accept qualifications in either Mathematics or Arithmetic.

- **English Requirement**

If successful, you will be required to complete written assessments as part of your training programme and then as a qualified Technician you will need to complete patient referral forms, these are a key clinical document and are key to patient care. Therefore, verbal reasoning and written skills are an essential part of the role.

*Please Note - Applicants, who hold a formal **academic** qualification at a higher level than SCQF level 4, will be deemed to have the required English reasoning skills and therefore will only need to hold a specific Maths qualification.*

Standard Accepted Qualifications	These are the standard formal qualifications which we accept. You will be asked to provide you academic certificates if you are invited to interview.
Accepted List of Equivalent Qualifications	These are the equivalent qualifications that we have deemed meet the required competency standard. You will be asked to provide you academic certificates if you are invited to interview.
Other Equivalence	These qualifications will be reviewed on a case by case basis. Applicants will be required to provide evidence as to how these qualifications meet the minimum SCQF Level 4 standard.

Standard Accepted Qualifications

The following are the standard formal qualifications that we accept. You must hold one of these in both English* and Maths.

*We can accept a higher formal **academic** qualification as demonstration of English reasoning skills.
