

# Freedom of Information Request

9<sup>th</sup> November 2021

## Question

I would like to know:

1. How many public defibrillators (AEDs/PADs) are there in each of your region's major cities?
2. How many new defibrillators have been registered in the past year (Oct 2020 – Oct 2021) in each of your region's major cities?

## Answer

The information you requested is publicly accessible through the Scottish Ambulance Service website via the link [pads-registered-in-scotland-may-30062021.pdf](https://www.scottishambulance.com/pads-registered-in-scotland-may-30062021.pdf) ([scottishambulance.com](https://www.scottishambulance.com))

If we may assist, if you require any further information, we ask that you direct your questions to the British Heart Foundation.
