Question

I would like to know:

1. The number of times a haemostatic tourniquet was recorded as applied between 1st Jan 2022 and 31st Dec 2022.
2. The initial blood pressure and pulse of the patient on whom this was applied.

Answer

Please find the data table below showing the number of incidents where a tourniquet has been noted to be used and the corresponding data against the individual entry.

As you will see there are some blank fields contained within the data set, we can confirm that this is accurate to the data held.
