Key points	This paper provides information on the most recent Board Development session held on 29 June 2022.
Timing	Board Development sessions are held bi-monthly and a report is provided to the next public Board meeting on the main items discussed.

NOT PROTECTIVELY MARKED

SCOTTISH AMBULANCE SERVICE BOARD

REPORT FROM BOARD DEVELOPMENT SESSION

TOM STEELE, CHAIR

SECTION 1: PURPOSE

Board Development sessions are held bi-monthly and provide an opportunity for Board members to consider issues in detail and improve members' understanding and knowledge of what are often complex subjects. The format of the sessions usually consists of a presentation or briefing from Executive Directors and managers leading the area of work, or staff involved in the work, followed by discussion and questions from members or a workshop focused on areas for board development.

SECTION 2: BACKGROUND

Board Development sessions are not decision making meetings. The Board's Code of Corporate Governance sets out the decision making process which is observed. The sessions do however assist the decision making process through in depth exploration and analysis of an issue which may be the subject of a formal board decision. They also provide an opportunity for updates on ongoing strategic matters.

SECTION 3: DISCUSSION

The Board Development session on 29 June 2022 was held virtually by MS Teams.

The main focus of this session was an update on the development of the Service's 2030 Strategy that would be presented to the Board for approval in July 2022.

In advance of the Service's Sustainability Strategy being presented to the Board for approval, Board members received a presentation focused on providing an update on electric vehicles and charging infrastructure development.

Board members also discussed initial feedback on the Non Executive Director staff engagement visits that had been taking place across the country following the easing of social distancing measures.
