

# Freedom of Information Request

**29 March 2023**

## Question

I would like to know:

1. On how many occasions have SAS ambulances broken down in each year since 2018? Please also provide this data for 2023 to date. I would define 'breaking down' as any occasion where an SAS ambulance was unable to be used due to defect with the vehicle.
2. What was the total time that these vehicles were not in service? Please provide this for each year since 2018, including 2023 to date.
3. What was the cost of repairing broken SAS vehicles? Please also provide this data for 2023 to date.

## Answer

We do not hold the information requested as per section 17 of the Freedom of Information Scotland Act 2002.
