Freedom of Information Request

29th November 2024

Question

I am writing to request information under the Freedom of Information Act regarding the private ambulance services contracted by the Scottish Ambulance Service. Specifically, I would like to request a list of private ambulance companies currently utilised by the trust. For each company, please provide the following information:

Organisation Name

Website Address

Contact Phone Number

Contact Email

Contact Name

This information will be used to help research the service in order to promote better compliance when handling controlled drugs and to align with Home Office audits, with a view to centralising the compliant needs. If possible, I would appreciate receiving this information in electronic format.

Answer

The Scottish Ambulance Service do not have contracts or utilise Private Ambulance Services.
