Question

I would like any vehicle service history and maintenance you have for this vehicle please:

Volkswagen transporter t30
Vehicle Registration is SN61CM

Answer

Please see attached document showing vehicle service and maintenance history for vehicle SN61 CMV.

The vehicle maintenance history of any Scottish Ambulance Service vehicle may not accurately reflect that vehicle at time of sale or disposal. To ensure best use of public funding, vehicles are assessed prior to sale or disposal and it is normal for vehicle markings, warning systems, operating components and reusable parts to be removed from the vehicle for further use or disposal. Vehicles and equipment sold through auction are sold subject to the terms and conditions of that auction sale. No guarantee of vehicle, components or equipment age, condition or warranty is offered or implied.

The Service will not release documents/information that could compromise the safety or security of any vehicles or staff. Where information may be commercially sensitive, copyright or of intellectual value to the vehicle manufacturer/converter, requests should be made to that manufacturer/converter.
